

Prudential Northern Trust UK Equity fund (series 3)

Northern Trust

Fund description

The fund's objective is to provide long-term capital growth and to seek to achieve appreciation of both capital and current income by investing in transferable equity and related securities primarily of companies listed or traded on a regulated stock exchange or market in the UK. Northern Trust achieves this by a rigorous process of selecting the best in class managers and blending the selection to create a strong, risk controlled combination. The benchmark is the FTSE All-Share Index.

Commentary

In March of 2009, Northern Trust announced the closing of the Northern Trust UK Equity Fund. During the second quarter, the Fund was in wind-down. The liquidation strategy focused on the following objectives:

- › Fair treatment of all clients.
- › Maintain maximum asset class exposure for investors
- › Minimize expense to wind-down
- › Maintain style neutrality of the Fund
- › Work with clients to efficiently exit the Fund in a manner that was consistent with the prior objectives.

In order to meet these objectives, the composition of the UK Equity Fund changed throughout the quarter. As clients redeemed from the Fund, the higher risk, more style specific managers were closed. Marlborough, a thematic growth manager, was the first strategy in the Fund to be redeemed. Cartesian, a higher alpha portfolio was redeemed subsequent. In June, Baillie Gifford's growth portfolio was redeemed. At the date of final closure, two managers remained in the Fund, Alliance Bernstein and Scottish Widows. Effective on June 22, 2009, the Northern Trust UK Equity Fund closed.

The decision to close the Fund was difficult and we appreciate the efforts by all of our clients to work with us during this transition.

Prudential risk rating

Higher

What type of funds are in this risk category?

These are specialist equity funds that focus on set geographical regions or a particular type of share e.g. shares of smaller companies or those that conform to certain criteria.

What is the risk rating?

- This risk rating reflects the expected short-term volatility in the fund's value.
- Risk ratings have been developed by Prudential for this fund. They should not be viewed as generic descriptions across the fund management industry. The ratings are reviewed periodically and may change in the future.
- There are a variety of investment risks facing a scheme member during pension scheme membership including inflation, changing annuity costs and volatility in fund values. The importance of each type of risk will vary from person to person and from time to time.
- You should discuss the investment risks and the appropriateness of this risk rating with an investment professional.

Important information

Who manages the funds?

All of the series 3 funds are Prudential funds.

Prudential Assurance Company Limited through Prudential Pensions Limited purchases units in managed funds run by Northern Trust Global Advisers Ltd. Northern Trust Global Advisers Ltd is part of Northern Trust Corporation in Chicago.

How are the fund prices calculated?

The Series 3 funds operate on a single swinging price basis. The pricing basis on which units in the fund are transacted is dependent upon the cash flow into/out of the fund. This is also the price that is published.

What is the dealing cycle?

The Pensions Series 3 fund range is forward priced which means that the unit price is set after money is invested.

Funds managed by Northern Trust have a dealing cycle of T+1. This means that money received on day T buys units at the valuation date price applicable at close of business 1 day later.

Who is this factsheet for and what does it do?

This factsheet is intended for the trustees, sponsors, advisers and members of occupational pension schemes using Prudential group pension contracts and Prudential grouped personal pensions and Stakeholder pension contracts. Its purpose is to shed some light on how investment markets and funds have performed over the period and is provided for information only. If you are not familiar with any of the investment terminology included on this factsheet, then please contact an adviser.

Can I get advice?

This factsheet should not be considered as a financial promotion and any changes to investment arrangements should be discussed with an adviser. It is not our intention to give an indication of how any particular funds will perform in the future. The commentary in this factsheet reflects the general views of the individual fund manager and should not be taken as a recommendation or advice as to how a specific market or fund is likely to perform.

How are the performance figures calculated?

Performance is measured on an offer price to offer price basis.

For the purposes of comparison with the benchmark we have used unit prices with the closest valuation point to that of the benchmark, taking into consideration the relevant dealing cycle.

To obtain current unit price and performance information for all funds in the Prudential Fund range, simply log on to www.pru.co.uk/fundprices and choose "Pension Funds" and then select Group Pensions (series 3).

Are all of the funds available to me?

Not all of the funds are available for every DC product.

If you are in any doubt as to which funds you are invested in, please contact your pensions department (for scheme members), usual Prudential contact (for trustees and advisers) or refer to the "Key Features Appendix" for the scheme.
