

# Prudential's Principles and Practices of Financial Management

## Summary of changes

### Introduction

Prudential's Principles and Practices of Financial Management (PPFM) sets out how we manage our with-profits funds. The current version of the PPFM, v1.34, can be found on our website at [pru.co.uk/ppfm](http://pru.co.uk/ppfm)

The PPFM was first published in 2004. We have summarised below the notable changes made to the PPFM since then. Other versions of the PPFM have been published to reflect changes necessary to correct minor errors and omissions, and improve clarity or presentation without materially affecting the PPFM's substance. Where necessary, corresponding changes have also been made to the consumer-friendly versions of the PPFM.

This Summary does not form part of the PPFM itself.
